Extra Pillow (XP) Program

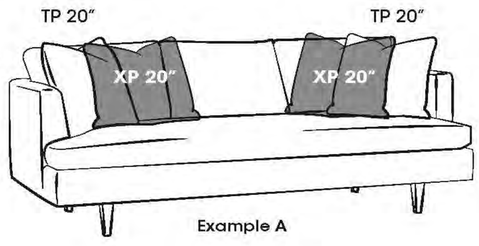
• The XP Pillow program offers one additional pair of Toss Pillows to any BASIC or PLATINUM sofa or any sectional at an exceptional value.

• The XP Pillows will duplicate the same size, detail, and fill as the standard toss pillows which come with the sofa or sectional. Please refer to example A and B.

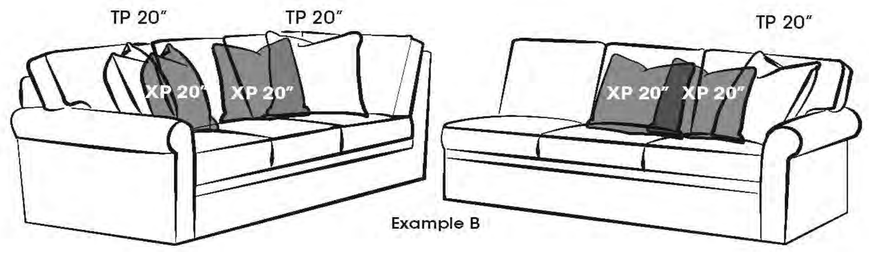
• In situations where a sofa comes standard with two pairs of pillows, with one pair being smaller than the other, the XP's will defer to the smaller size.

• The XP option is available on any Sectional SKU that comes standard with one or more toss pillows. Please refer to example B.

• The XP option is not offered on loveseats, chairs, or accent pieces.



Example A



Example B

À La Carte THROW PILLOWS

STANDARD THROW PILLOWS (TP)

The standard number, type, and pillow fill is listed with each style on every catalog and price list page.
If the pillow fill is not indicated as DOWN or DOWN BLEND it is a 100% fiber filled pillow.

EXTRA PAIR OF THROW PILLOWS (XP)

- One extra PAIR of BASIC throw pillows (XP) may be purchased for $170/PAIR in any grade Q-OO fabric with any sofa, sleeper, or sectional piece that comes with at least (1) standard pillow.

- One extra PAIR of PLATINUM throw pillows (XP) may be purchased for $212.5/PAIR in any grade Q-OO fabric with any sofa, sleeper, or sectional piece that comes with at least (1) standard pillow.

- **XP** pillows default to the same size, type, and fill as the standard **TP** listed on the item you are purchasing.
- **XP's** come in pairs even though a qualifying item (e.g. a sectional piece) comes standard with one pillow.
- If a qualifying item comes with multiple size standard pillows, the **XP's** will be the smallest size listed.
- Contrasting welt specified on an item will include the welt on **XP's** ordered with that item.
- The following is an example of how to write an order for the Nantucket Sofa with XP's and contrast welt.

(NOTE – Contrasting welt fabrics will be applied to all the welt cord on the sofa, TP's and XP's)
(1) A910-000 Nantucket Sofa

Balance Fabric - 1530-19
TP Fabric - 11726-47
XP Fabric - 12965-19
CWelt Fabric - 19119-04

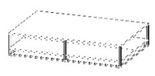
OCCASIONAL

October 2025 Pricelist

FEATURES

FINISH	Finishes include are watermark resistant compound to temporarily protect against water condensation ring marks. Finishes are CPSIA or PROP65 Compliant.
VENEER	Veneer thickness is industry standard at 0.6mm.
GLASS	All glass shelves and surfaces are tempered glass.
DRAWER INTERIOR	Drawer interiors are stained to match the exterior case finish or a coordinating color. Drawers are constructed of 12 mm poplar plywood. Drawer joinery is French Dovetail at the front and English Dovetail at the back, unless otherwise noted.
SOFT CLOSE DRAWER GLIDE	All drawers include this feature. Gently push the drawer from an open position, allowing the mechanism to "catch" and pull the drawer closed.
SOFT CLOSE DOOR HINGE	This feature is included on Credenza doors. Gently push the door closed from a fully open position. The soft close hinge will slowly pull the door to touch the magnetic touch latch. To fully close the door, gently push the corner of the door to "pop" the magnetic touch latch in a closed position. If the doors appear to be uneven, the hinges can be adjusted with a screwdriver.
SOFT CLOSE ELBOW HINGE	This prevents fingers from getting pinched by slowly lowering the top hidden compartment surface. On the RR-10330-321 Metro and RR-10310-321 Summit Lift Cocktail Tables.
MAGNETIC TOUCH LATCH HARDWARE	These are on doors, drawers and compartments that do not have visible, decorative hardware pulls. To open, give the corner or edge a push with your finger. The door will then "pop" open so you can pull the door to it's full extension. The magnetic mechanism has a spring that releases and extends after pressed. These are adjustable, so if a door face does not appear to be flush, turn the cylindrical magnet extension until the door is level with the other surfaces.
INTERIOR ADJUSTABLE SHELVES	Interior adjustable shelves are secured with screws for shipping. These should be remove after delivery. This applies to the Knoll RR-10340-600, Origin RR-10320-600 and Sojourn RR-10130-600.
WIRE MANAGEMENT AND VENTILATION	Credenzas with an enclosed space are designed with openings for wires to feed through and hot air to escape. This applies to the Knoll RR-10340-600, Origin RR-10320-600 and Sojourn RR-10130-600.
ADJUSTABLE FLOOR GLIDE	Floors may not be level or some legs may be placed on a rug vs solid floor surface which may cause hardware to look uneven. Adjust the floor glides to level hardware and/or doors.
TIPPING RESISTANT HARDWARE	Pieces that are taller than 30" are required to pass a tip test. Chests with drawers are tested with a 50 pound weight, the approximate weight of a small child, placed at the front of the drawer while fully extended, to see if it will tip over. If they do not pass the tip test, anti-tipping hardware will be included and can be applied by the end user. These are standard in the industry for child and earthquake safety. Tipping restraint hardware is included in shipping on applicable pieces.



Bartola Rectangle Coffee Table **$1,181.50**

RR-10880-305

Dimensions(in): 71w x 47d x 16h

CASE GOODS LIMITED WARRANTY

SUBJECT TO THE LIMITATIONS AND EXCLUSIONS DESCRIBED HEREIN, THE COMPANY WARRANTS TO THE ORIGINAL PURCHASER ONLY ITS CASE GOODS PRODUCTS TO BE FREE FROM DEFECTS IN MATERIAL AND WORKMANSHIP FOR A TERM OF ONE (1) YEAR FROM THE DATE OF PURCHASE FROM AN AUTHORIZED DEALER BY THE ORIGINAL PURCHASER. THIS IS THE SOLE WARRANTY AND IS IN LIEU OF ALL OTHERS, ORAL OR WRITTEN, EXPRESS, OR IMPLIED. NO REPRESENTATIVE OF COMPANY OR ITS DEALERS IS AUTHORIZED TOMAKE ANY CHANGES TO THIS LIMITED WARRANTY.

WARRANTY DISCLAIMER AND LIMITATION OF LIABILITY

ANY AND ALL IMPLIED WARRANTIES ARE EXPRESSLY DISCLAIMED, INCLUDING WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, NONINFRINGEMENT AND QUIET ENJOYMENT. IN NO EVENT WILL ROWE FINE FURNITURE BE LIABLE FOR ANY INDIRECT DAMAGES, INCLUDING INCIDENTAL, PUNITIVE OR CONSEQUENTIAL DAMAGES, ARISING OUT OF THE USE OR INABILITY TO USE A ROWE PRODUCT. SOME STATES DO NOT ALLOW LIMITATIONS ON HOW LONG AN IMPLIED WARRANTY WILL LAST OR THE EXCLUSION OR LIMITATION OFINCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THE ABOVE LIMITATIONS MAY NOT APPLY.

WARRANTY LIMITATIONS AND EXCLUSIONS

1. The warranty is void if the Company's product is modified or altered in any way after shipment by the Company.

2. The warranty is void if any aftermarket protective treatments are applied to the Company's product after the original factory packing has been opened. Re-upholstering the product frames voids all warranties due to the possibility that the internal structure could be compromised during the recovering process. Natural variations in color, texture, physical distressing, and other inherent features of manufactured wood furniture, as well as components characteristics, are not considered defects.

3. The Company reserves the right to modify a product from its original form displayed on showroom floors or in catalogs. Such modifications are not considered defects under the warranty.

4. The warranty applies under conditions of normal residential usage. It does not apply to defects or damage resulting from negligence, abuse, or misuse – including but not limited to inadequate or improper maintenance, exposure to water, salt air, chemicals, accidents, any use for which the product was not designed, or commercial use (including rental, business, commercial, institutional or any non-residential use), nor does it cover ordinary wear-and-tear.

5. Because of the natural materials used in the manufacturing process, and the fact that the Company's products are generally handmade, minor variations will occur from piece to piece. These are not considered defects under the warranty.

6. Stone and marble contain vein-lines, hairline fissures, pores and color variations that are natural characteristics and are not considered defects under the warranty. Because stone is porous, spills allowed to seep in may not be removable. Use coasters or a tablecloth to protect from spills or sweat rings. Wipe any spills immediately.

7. Full-grain leather is a natural product. The wrinkles, skin folds and scars are authentic and a natural part of the leather. These characteristics enhance the beauty and quality of the hides and are not considered defects. For daily dustings, use dry, clean, cotton cloths.

8. Sunlight will cause wood, finishing materials, and fabrics to change color – these changes are not considered defects under the warranty.

9. Extremes in temperature and humidity can cause both wood and finishing materials to shrink, swell, warp, split, and glue seams to fail. These conditions are not considered defects under this warranty.

10. Rubber lamp bases, lamp cords and some types of plastic materials may soften and injure the finish if left in direct contact with the furniture for an extended period. Such damage is not considered a defect under the warranty. To avoid this, place a piece of felt or leather under these materials where they contact the furniture.

11. Direct contact with petrochemical products, (nail polish remover, alcohol, etc.) will damage the finish. Such damage is not considered a defect under the warranty. Wipe up any spills or dampness on your furniture immediately. Use a clean cloth and wipe with the grain of the wood. First, wipe with a soft cloth dipped in a mild soap and water solution and wrung out; wipe again with a second clean cloth; then dry thoroughly with a third cloth.

12. Woven materials, including but not limited to wicker, sea grass, and other similar materials, are comprised of individual strands that can move causing unfinished areas to show under the strands or the finish to slightly peel where it bridges between strands. These characteristics are not considered defects under the warranty. Clean the frames of your natural fiber furniture by dusting or vacuuming, sponge spills with mild soap and water, rinse, and wipe dry.

13. The Company's products are not designed for outdoor use. There may be images in catalogs that display items in an outdoor setting. This is for display purposes only and not an indication that the product is suitable for outdoor use. Damage due to exposure to outdoor elements is not considered a defect under the warranty.

14. Neither this nor any other warranty, express or implied, is offered by the Company for any electrical devices, including but not limited to lighting fixtures, surge protectors, or computer, electronic or multi-media management devices that may be included with a product.

15. The Company strives to provide an accurate representation of the finishes, fabrics, and materials displayed in its catalogs and on our website; however, due to changes in lighting and a wide variety of resolution qualities on different computer monitors and printers, some color variation is possible. To determine the exact color of a finish, fabric, or material, we suggest that you contact the dealer.

16. This warranty does not cover floor samples or other products designated "as is" or "final sale" at time of purchase

17. The Company's products are offered in a variety of finishes. Each piece is finished by hand and involves a variety of steps. While the Company strives to replicate each finish to a standard finish, each piece is truly unique due to the individual attention each order receives. This is a result of the

varying application techniques that are handcrafted. Additionally, variations in the wood used in a piece, such as species, grain, and color have their own impact on the final look of your finished piece. These conditions and variations from piece to piece are not considered defects. Because the finishing process is completed on demand, it is preferable to finish matching pieces for our customers at the same time to match a finish between pieces. The Company recommends customers order matching pieces at the same time to decrease the number and likelihood of variations.

18. Silver Leaf application is applied by hand and can contain some slight wrinkling and variations. These conditions are not considered defects.

19. Striping or accenting is available on certain items. This is a very labor-intensive manual process, and the look will vary from piece to piece. These differences in appearance are not considered defects.

FABRIC PATTERN TYPES

Regular (RG)

This is a railroaded fabric that does not require any pattern matching.

Plaid and Stripes (PS)

Plaid and/or stripe fabrics that are matched vertically and horizontally in all areas. Throw pillows will match each other and stump panels will mirror each other.

*Non-Match (NM)

This is a non-railroaded fabric that does not require any pattern matching.

*Restricted Stripe (RS)

This is a non-railroaded fabric that requires matching specific designs such as stripes, plaids, structured motifs, or floral patterns. These designs will match vertically and horizontally in all areas. Throw pillows will match each other and stump panels will mirror each other.

NOTE: Due to the pattern direction of NM and RS fabrics, the usable width of these designs is only 53" wide. Therefore, when applying to styles that have components wider than this, a seam will be added in order to cover the piece properly. The placement of the seam(s) is at Rowe's discretion.

Center Prints (CP)

This fabric features a focal design such as a floral bouquet or other graphic that requires it to be located vertically and horizontally in all areas. Throw pillows will be centered and stump panels will mirror each other.

Unbalanced Stripes (PSNB and RSNB)

While most of these stripes tailor beautifully, you should know that striped fabrics labeled with this designation will only match on loose seat and/or back cushions when the matching side of each cushion is showing. Flipping either the seat or back cushion will reverse the stripes, causing them not to match each other nor the skirt or base panel.

Using an un-balanced stripe on an ottoman results in the stripe on the top of the ottoman matching only on one side (where the stripe both lines up and the colors match). The stripes on the opposite side of the ottoman may line up, but the colors will not match.

Wearability Ratings

9,000 to 14,999 double rubs: Medium Duty
15,000 + double rubs: Heavy Duty
30,000 + double rubs: Contract Duty

ORDER FUNDAMENTALS

PLEASE LIST SOLD TO# ON ALL ORDERS-If you need this information, please contact your Customer Service Representative or Marketing Representative.

Some items will require additional information, but the template below is a basic guide to follow for most custom upholstery orders.

QTY	STYLE #	DESCRIPTION	AREA TO COVER (BODY/TP/XP/WELT)	FABRIC	FINISH	CUSHION PACKAGE	NAIL/CASTER COLOR	MATTRESS

FABRIC COMPATIBILITY

-Not all fabrics and leathers are available on all pieces
-One "Pattern Type" is listed for each fabric.
-Each frame can accommodate one or more "Pattern Types" which are listed on the catalog and pricelist page for each style.
-Only the "Pattern Types" listed for each style are available for use on that frame.
The Pattern Types are: RG (Regular), PS (Plaid & Stripes), NM (Non-match), and RS (Restricted Stripe).

CONTRAST WELT

Where available and when specified, a contrasting welt fabric will be applied to all welts and buttons associated with the item on which it was ordered, including all standard throw pillows (TP) and optional extra pillows (XP). An upcharge for this option is listed with each eligible item.

SECTIONAL ARM IDENTIFICATION

Sectional arms are identified by which side the arm is on when you are **seated** in each piece, i.e. **LEFT SEATED** or **RIGHT SEATED.**

FINISH OPTIONS

One of 10 wood finishes must be specified when required as there is no default standard finish and there is no additional cost:

CAROB CHESTNUT CHOCOLATE COAL ESPRESSO
GRACIOUS LIVING IVORY LATTE WASHED OAK WASHED PINE

NAIL TRIM OPTIONS

One of 4 nail trim colors must be chosen when nail trim is either standard or optional as there is no default standard color:

ANTIQUE BRASS PEWTER BLACK NICKEL GOLD

CUT YARDAGE PURCHASES

Cut yardage is shipped F.O.B Elliston, VA. A minimum of 1 yard per fabric sku must be ordered with half yard increments allowed over 1 yard. Orders for cut yardage should be submitted on a separate purchase order from furniture purchases to facilitate the handling of your order and be submitted to the parts order entry department e-mail address CAC03X@rowefurniture.com.
Please note that orders for large quantities of continuous cut yardage could contain minor flaws from the fabric weaving mills, we recommend that you order extra yardage to allow for these slight imperfections. We will not send out yardage with major flaws, however at times to allow us to send continuous yardage it could contain a minor flaw and we will send additional yardage at no charge to cover the inconvenience.

CUT FABRIC YARDAGE PRICING
Grades Q-AA - $76.5/yard
Grades CC, HH, MM- $102/yard
Grades NN, OO - $127.50/yard

Cushions

Harmony

I'm a no-fuss kind of cushion. Always supportive, always in place, and always low-maintenance.

- Durable 2.3 density foam
- Multi-channeled stitching prevents lumping
- Strategically layered foam for lasting comfort
- Premium ticking with breathable 7-denier fiber filling
- 7 year warranty
- Available on select styles

Cloud

I combine the luxurious look you love with the breathable comfort you need, knowing that a little care and maintenance goes a long way.

- Durable 2.3 density foam
- Multi-channeled stitching prevents lumping
- Breathable premium ticking
- 7-denier fiber filling mixed with feather and down blend
- 3 year warranty
- Available on all styles

Bliss

I am a premium down alternative with minimal maintenance that's kind to the planet with a plush feel, supportive strength, and long-lasting durability.

- Dual layers of 2.5 density Haven™ memory foam for pressure-relieving comfort and recovery
- Hypoallergenic ultra-fine Luma™ fiber made from 100% BPA-free recycled water bottles
- Multi-channeled stitching prevents lumping
- 7 year warranty
- Available on select styles

Classic

I'm supportive, structured, and subtly sof-wrapped for surface softness, and designed to deliver lasting shape and support.

- 1.8 density foam
- Soft polyester fiber wrap for added comfort and shape retention
- Back cushions feature multi-compartment construction to keep fiber evenly distributed
- Tight-back styles are built with a solid foam layer topped with fiber for a tailored, supportive sit
- 5 year warranty
- Available on select styles

Classic XF / Extra Firm

I offer a firmer sit, structured, and subtly wrapped for surface softness, and designed to deliver lasting shape and support.

- 2.5 density foam
- Soft polyester fiber wrap for added comfort and shape retention
- Back cushions feature multi-compartment construction to keep fiber evenly distributed
- Tight-back styles are built with a solid foam layer topped with fiber for a tailored, supportive sit
- 5 year warranty
- Available on select styles

Cushions

Plush

I'm plush, supportive, and thoughtfully tailored—crafted for everyday comfort with just the right amount of give.

- Ultracell high-resiliency foam core for a soft initial feel and lasting support
- Outer jacket sewn into channeled fabric casing for even distribution
- Filled with fine, silky micro-denier polyester fibers for a smooth, plush surface
- Designed for comfort you can count on, day after day
- 7 year warranty
- Exclusive and standard to My Style 1 & 2 programs

Plush XF

I'm plush with extra support and a refined, tailored feel, crafted for everyday comfort with the perfect balance of structured support

- Ultracell high-resiliency foam core for a soft initial feel and lasting support
- Outer jacket sewn into channeled fabric casing for even distribution
- Filled with fine, silky micro-denier polyester fibers for a smooth, plush surface
- Designed for comfort you can count on, day after day
- 7 year warranty
- Exclusive and standard to My Style 1 & 2 programs

Luxe

I'm structured, supportive, and softly tailored- layered for lasting shape, wrapped for comfort, and built to hold it all together beautifully.

- 1.8 density foam
- Firm inner wrap that adds structure and shape retention
- Silky outer layers for softness that won't sacrifice support.
- Back cushions use multi-chambers to keep silky fiber evenly in place.
- Tight-back styles feature foam and fiber for a supportive sit with minimal settling.
- 5 year warranty
- Available on select styles

Luxe XF / Extra Firm

I offer a firmer sit with structured support and a softly tailored feel- layered for lasting shape, wrapped in comfort, and crafted to hold it all together beautifully.

- 1.8 density foam
- Firm inner wrap that adds structure and shape retention
- Silky outer layers for softness that won't sacrifice support.
- Back cushions use multi-chambers to keep silky fiber evenly in place.
- Tight-back styles feature foam and fiber for a supportive sit with minimal settling.
- 5 year warranty
- Available on select styles

Haven

I am high-resiliency foam with layered memory technology—crafted for a plush feel, supportive strength, and long-lasting durability. I'm known for my recovery.

- Dual layers of 2.5 density Haven™ memory foam for pressure-relieving comfort and recovery
- Soft polyester fiber wrap for surface softness
- Engineered for long-lasting shape and reliable recovery
- 7 year warranty
- Available as standard on the Moore collection and an upgrade on the Choice Program

SLEEP SOFA MATTRESSES

STANDARD MATTRESS

Our standard mattress is a 5” innerspring mattress with a hypoallergenic, quilted, satin-weave fabric covering. A layer of densified fiber is upholstered between the quilted top panel and the insulator pad to provide a plush sleeping surface. The innerspring coils are laced together to distribute weight evenly.

CLOUD CONTOUR

The Cloud Contour mattress offers two foam layers for superior comfort. A layer of dense polyurethane foam is topped by a 2” layer of Visco Elastic Memory Foam that responds to heat to conform to your body. The memory foam offers unparalleled support by evenly distributing weight and relieving pressure points. The unique recovering memory foam slowly springs back into shape and is hypoallergenic.

SLEEPER MECHANISM

Our Sleeper Mechanism offers the following features and benefits:

Tri-Tube Body Support System
Enhances the support in the body section to eliminate sagging. The tubes keep the unit square and enhance unit strength.

Extended Deck Coverage
The heavy-duty polypropylene decking is designed to extend beyond the metal frame and linkage parts, eliminating any metal to-upholstery contact.

All-Square Tubular Frame Construction
Provides a strong, visually appealing look with improved safety (eliminating pinch points).

Seat Support System
Provides support while sleeping, plus adding durability to the seat. Support wires and additional helicals also give the quality feel of stationary seating.

TV Headrest
An adjustable tilt mechanism at the top,which allows comfortable seating while reading or watching TV.

Rooted in Values. Driven by Purpose.

Since 1946, Rowe has been committed to curating exceptional and responsibly manufactured upholstered furniture collections with fashion and timelessness in mind. Our dedication to quality, comfort, sustainability, and creativity has made us a trusted name in the world of curated home furnishings.

Throughout our history, we have remained steadfast in our mission of delivering products that not only meet the highest standards but also reflect the individuality and style of our customers.

Inside, you'll find key details about your furniture's warranty and performance features, so it stays beautiful and functional for years to come.

Designed for you. Crafted for life.

Warranty Details

The Rowe Warranty is exclusively offered to you, the original purchaser and owner, as a commitment to quality and care. The Rowe Warranty does not apply to furniture that has been abused or used in a business environment and/or for commercial purposes. The Rowe Warranty only applies to furniture used for normal residential purposes.

Our warranty does not cover products sold in “distressed” or “as is” condition, products sold “second hand”, products purchased from a retailer, or any other form of reseller not authorized by Rowe to sell our products. All warranties cover labor for one (1) year only. Floor sample items are warranted for one (1) year only.

Frames and Springs: *Lifetime Limited Warranty*

All the Limited Warranties set forth below are subject to these Warranty Limitations.
Frames and spring systems are under warranty to be free from manufacturing defects for the life of the product.

Sleeper, Recliner, Swivel Chair & Rocker Mechanisms: *5 Year Limited Warranty*

Motion mechanisms and specific fixtures are under warranty to be free from manufacturing defects for five (5) years (this includes, but may not be limited to, swivel/rocker bases and sleep sofa mechanisms).

Recliner Motor & Electronics: *3 Year Limited Warranty*

All recliner motors are under warranty against failure or manufacturing defects for three (3) years on parts and one (1) year on labor to replace the motor or electronic components.

Innerspring and Cloud Contour Mattresses: *3 Year Limited Warranty*

Standard Rowe Sleep Sofa Innerspring and Cloud Contour Mattresses are under warranty to be free from manufacturing defects and against the loss of foam resiliency for three (3) years.

Serenity Sleep Mattresses: *7 Year Limited Warranty*

Serenity Sleep Mattresses are under warranty to be free from manufacturing defects and against the loss of foam resiliency for seven (7) years.

Fabrics, Leather, Backfill, Zippers & Fastenings: *1 Year Limited Warranty*

- Upholstery fabrics, including slipcovers, are under warranty for one (1) year against seam slippage, fraying, and dye transfer, but ONLY if any cleaning conforms to industry standard methods. This warranty does not cover wearing, wrinkling, fading, or pilling. Any self-treatment or retailer-applied soil repeller voids this warranty.
- Cane, wicker, and bamboo woven components carry a one (1) year warranty. Our warranty covers normal wear and tear, not punctures.
- Back pillow filling materials are under warranty for one (1) year against the loss of foam resiliency.
- Foam filling materials are under warranty for one (1) year against the loss of foam resiliency.
- Zippers and seams are under warranty for one (1) year against failure, including seam slippage.

Cushions: *3-7 Year Limited Warranty*

At Rowe, we're committed to the quality and durability of our cushions, which is why our warranties range from 3 to 7 years, depending on the cushion type.

Cushion Warranty Details

Foam cores are warranted for 3 to 7 years against manufacturing defects and loss of resiliency, subject to normal use.

We also cover defects in materials and workmanship for the length of each cushion's warranty period. Our cushions are built for comfort and longevity, and we stand behind their quality. If you experience any issues with your cushions, we'll work with you to resolve them promptly within the guidelines of our warranty.

Seat Cushion Care and Performance Characteristics

Our foam cores are CertiPUR-US® Certified, which means our foam has been tested and approved for safety, health, and environmental standards. Our foam contains no harmful chemicals such as formaldehyde, lead, or mercury, has low VOCs for better indoor quality, and is made without ozone-depleting substances.

Normal softening and settling of the foam and fibers over time is a positive result of the natural break-in period and should not be confused with a defect. This process contributes to the overall comfort and feel of the cushions, ensuring they adjust to your unique seating needs.

While foam will soften, it should not lose resiliency or the ability to recover from compression. Polyester wraps used to create surface softness will lose some of the initial loft over time, which will contribute to cushion settling and showcasing some comfort wrinkles. Comfort wrinkles are not a defect, but rather a byproduct of a nicely settled-in sofa.

Our softer cushions, the Luxe, Cloud, and Bliss are casual by design and will require various degrees of maintenance. We suggest you fluff these cushions as you would fluff the feather or down pillow you sleep on.

You can prolong cushion life and keep your cushions looking fresh by turning and rotating them regularly. You may also want to regulate the cushion core and polyester wrap by unzipping the casing and adjusting the fit of the core and polyester wrap. We do not suggest removing the cushion core from the casing.

Prolong The Life of Your Fabric

Dust and dirt promote premature fabric wear. Vacuum the surface of your furniture regularly, including the deck under the cushions, with the upholstery attachment of your vacuum cleaner. Direct sunlight can cause some fabrics to fade. Care should be taken to limit the amount of direct sun on any piece of furniture.

Our Promise

Within the provisions, time allowances, and limitations of this warranty, we promise to repair or replace, any part or parts we deem to have manufacturing or material defects at our discretion.

Service

To request service under this warranty, contact the authorized Rowe Retailer from whom you purchased your Rowe furniture. The Retailer will contact us. Certain defects may be repaired in your home with our authorization for the first year. Some repairs will need to be made at the Factory Service Center. The Rowe Warranty does not include any transportation cost to or from the retail location. The Retailer will contact our Factory Service Center to schedule a pickup from the Retailer and subsequent service. The Rowe Warranty does not include the cost of transporting the furniture to and from the Factory Service Center after one (1) year from the date of purchase. If service is not handled through the Retailer where the purchase was made, shipping and handling charges will apply.

Shipping and handling costs for parts are covered for one (1) year from the date of original purchase. After one (1) year the customer will be responsible for shipping and handling costs.

Certain information is required to process a request for service which includes a copy of your sales receipt and the serial number for each piece of furniture. You will find the style and serial numbers on the deck label sewn to the underside of the piece of furniture or under the seat cushions. Without proper validation of the furniture, the warranty will be void. If either you or the retailer has moved, you may contact our Customer Care Department at www.rowefurniture.com.

Rowe is not responsible for any incidental or consequential damages. If a claim is approved, our responsibility is limited to the original purchase price or replacement of the product. Please note that some states do not allow these limitations, so they may not apply to you.

SPECIAL INSTRUCTION AND SPECIFICATIONS

Supersedes all previous price lists for styles listed herein. Prices and specifications are subject to change without notice.

Terms: Net 30 days from the date of each invoice. F.O.B., Elliston, VA

Pricing: All Prices in U.S. Dollars.

Acknowledgment: All orders are acknowledged from the factory. It is important that you check each acknowledgement against your purchase order as the order will be shipped and invoiced as acknowledged.

Ship-To Locations: Shipments are made to our customer's stores or warehouse by truck or motor freight.

Shipping Contingencies: Shipment of orders is contingent upon strikes, fires, floods, carrier delays, and other delays beyond our control.

C.O.M: Customer's Own Material cannot be accepted.

Style Variations: All styles available only as shown in sales materials or as described in pricelist.

Cancellations/Holdups: Cannot be accepted after an order is scheduled for production since all merchandise is made to the customer's specifications. Leather orders cannot be cancelled after three-day period of being received.

Self-Deck: Is not available.

Fabric Notice: Due to conditions beyond our control, we cannot guarantee wearability, color fastness, or shrinkage of any fabric used on our merchandise, nor can we guarantee protective finishes. Velvets and velvet types are by their very nature fabrics of soft texture and will crush, shade and mark more readily than most fabrics. This is no way to be considered a defect.

Sizes & Dimensions: Sizes and Dimensions will vary slightly from piece to piece due to the individual hand craftsmanship used in every style we produce. Dimensions for each piece can be found on corresponding catalog or pricelist page.

Overall Length: Length is measured to the very outside arm of the sofa. This includes the filling material, which can extend beyond the welts on the piece.

Overall Depth: Depth of the sofa is measured to include the deepest part of the sofa, from front to back, and includes all filling materials. Note that some styles have slanted outside backs and should be placed against a wall to obtain the correct overall depth.

Overall Height: Height is measured from the floor to the highest part of the sofa. For sofas where the back pillows rise above the back rail, measure to the highest point of the back pillow.

Seat Height: To measure seat height, place a flat level tool (such as a ruler) on the seat cushion at the crown so that it hangs over the front of the cushion. Measure from the ground to the bottom of the ruler. This will be your seat cushion height.

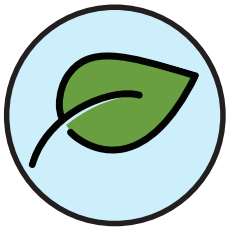
staying green

We are committed to eco-friendly manufacturing. We are a Founding Member of the Sustainable Furnishings Council and we believe in responsible manufacturing for our environment and our world. We have incorporated eco-friendly elements into our collections.
We also participate in recycling programs in our offices and on our factory floor. You can be assured that we take our role as a U.S. manufacturer seriously and that we plan to be around to benefit from a cleaner environment.

We follows the following internal practices:

- We actively recycle the following materials:
  - Cotton
  - Foam
  - Polyester fiber
  - Cardboard boxes
  - Chip board
  - Paper
  - Plastic
  - Metal bands
- The heating system for the wood frame factory, and fuel for the wood-drying kilns, is generated by burning scrap wood and sawdust.
- We have considerably reduced our methanol emissions (HAP's and VOC's) by switching from duplicating fluid used in making our fabric cutting patterns to using plotters and recycled paper
- We switched from a solids-based foam glue to a 2-part water-based foam glue to further reduce HAP's and VOC's
- We reduced emissions (HAP's and VOC's) from our wood-finishing operations by changing from a 5-7 step process to a 4-step process
- We encourage the reading of emails and not the printing of emails, and we have introduced fax-to-email
- We switch off computers overnight
- We use natural ingredient based cleaning solutions for floors, windows, etc.

being green



With the launch of our Eco initiative, our company has made a solid commitment to eco-friendly manufacturing processes and sustainable product development. Eco focuses on three crucial elements in our furniture – a selection of over **190 natural fiber fabrics**; the use of **wood** from replenished, domestic forests for the frames and the use of eco-friendly **cushion cores**.

Our **eco-cushion core** contains plant-based, renewable materials which partially replace petroleum-based materials used in standard foam cushions. Our **eco-down blend** cushion core is a modern combination of high-resiliency foam with recycled fiber and a blend of duck feather and down.

Each piece of **our furntiure** will include eco-wood and eco-cushion cores. With your choice of fabrics, you can create an eco-friendly piece of furniture.

Eco-Friendly Materials Used in Our Production

- Arm cardboard: 100% recycled paperboard
- Corrugated cardboard: greater than 25% made from recycled corrugated containers
- Down cushions: polyester fibers from recycled plastic bottles
- Springs: made from recycled iron ore
- Nails/Screws: Uncoated. Instead, water-based lubricant is used.
- Cotton: 85% recycled materials
- Wovens/Non-Wovens: Some bleaching process eliminated

SLIPCOVER CARE

Even if you have a washable slipcover you may want to have a professional cleaner launder it. The body slip cover of a sofa is a fairly bulky load, requiring a "Laundromat" type of washer. Should you choose to wash your slipcover, follow these instructions.

- We suggest that you run the washer through a wash cycle empty before washing your slipcover-just to be sure it is free of any detergent, bleach, or other impurities that might spot or stain the slipcover.

- We also suggest that you wash the entire slipcover; washing only select parts may result in color variations on the piece of furniture (you may want to consider washing all pieces in the collection at the same time, i.e. wash the sofa, the chair and the ottoman covers at the same time to minimize color variations which may occur with washing).

- Don't overload your washer. Separate the slipcover into two loads, washing the body cover in the first load and the cushion covers in a second load.

- Zip the zippers (closed) on pillows and cushion covers to prevent damage when washing.

- Use the gentle cycle on your washing machine. Use cold water and a mild detergent.
  Do not use a detergent with bleach or a bleaching additive.

- Remove the slipcover from the washer immediately at the end of the cycle. While air-drying is preferred, you can use the dryer-on the ***no heat*** setting. Tumble dry until the slipcover is just slightly damp.

- Put the body slipcover back on the piece of furniture while still slightly damp. You may need to stretch it a little to get it back on. Putting the cover back on while it's still slightly damp ensures it will dry to fit.

- Covers for seat and back cushions and pillows should be replaced slightly damp as well. Stand the cushions on end, rotating them every 20 to 30 minutes until dry. This will prevent any water that may drain to one side of the cushion from sitting in one place and possibly causing a water stain.

LEATHER CARE

Leather is the longest lasting and most durable upholstery material you can get, perfect for any room of your home or office. It will withstand the rigors of daily life, including children and pets and still look great. Although the initial investment of quality leather may be more than fabric upholstery, leather is one of the best values in the long run. With proper care our quality leather can be expected to last an average person's lifetime.

- A monthly wiping with a warm and gently damp clean cloth will prevent your body oils and dust from creating a buildup. As easy as it sounds, this maintenance is key to prolonging the life of your leather furniture.

- **Do not use** saddle soaps, oils, abrasive cleaners, soaps, furniture polish, varnish or ammonia based products. The leather has already been permanently preserved in the tanning process and needs no maintenance other than the simple cleaning recommended.

- In case of a deep cleaning or conditioning, you should use leather specific cleaners and conditioners. These products are specially designed for this purpose and will not affect the structure of the leather. Recommended 2 to 3 times a year.

FABRIC DISCLAIMER INFORMATION

Washed: This fabric has been washed by our fabric supplier and is subject to comfort wrinkles and stretching. This is considered a desirable expression of the fabric's elegance. This fabric is also subject to dye lot variations due to the washing process. Please refer to page 53 for slipcover care.

Dye Lot: Due to the nature of the various types of yarns used in this fabric, dye lots may vary from piece to piece. These yarns are also susceptible to fading by sunlight. To avoid excessive fading, keep furniture out of direct sunlight. Shade variation will be more extreme on leathers with transparent finishes. Leathers that are pigmented will have less color variation, but all leather is a natural product, and every hide absorbs dyes differently. We recommend orderings all fabric and leather pieces together to prevent dye lot issues. We are not able to guarantee that different dye lots of material will match.

Chenille: Chenille's are luxurious fabrics of soft texture that may crush and mark more than other fabrics. Crushing of the surface creates random shading, which is considered a desirable expression of the fabric's elegance.

Velvets: Velvets are luxurious fabrics of soft texture that may crush and mark more than other fabrics. Crushing of the surface creates random shading, which is considered a desirable expression of the fabric's elegance.

Slub: The occasional irregularities and variations of the yarn used in this fabric are not to be regarded as defective. They are the natural characteristics of this fabric's look and design.

Microfiber: This fabric is stain resistant and can be cleaned using a mild detergent and water solution. Using a small amount of the soapy solution, blot the stain gently with a sponge or white cloth. Use a circular motion, and work from the outside part of the stain to the inside part of the stain. Once the stain has been removed, wipe the area thoroughly with water and a clean cloth to remove any soap residue. For heavy staining, please consult a professional upholstery cleaner.

Rayon Chenille: The RAYON CHENILLE yarn behaves in a very similar manner to a pile fabric or velvet in that this fine yarn has a tendency to crush or compact, resulting in light or white areas in the fabric. Our suppliers have tested each of these fabrics and they have met all industry standards for performance and durability. This pile distortion can be removed through steaming and light brushing, but these conditions may reappear over time. Claims for this condition as defective fabric cannot be accepted, as this is a natural characteristic and inherent condition of fine Rayon Chenille fabrics. Please check the fabric content found in this price list and/or on the swatch itself. ***NOTE: This characteristic applies to CHENILLE fabrics only and is generally attributed when the Rayon makes up the majority of the overall content***.

Distressed: The distressed appearance and occasional irregularity of this fabric is a desirable trait and not to be regarded as defective. They are a natural characteristic of this fabric's look and design.

Wrinkle/Pucker: This fabric features a double weave application which permanently sews in "wrinkles" or pockets" as part of the design and is not a defect.

Dyelot Matches: Due to fabric dye lot variation, we cannot guarantee that new/additional pieces will match, unless they are ordered at the same time.

FABRIC CLEANING CODES

Industry Standards - Color Fastness Codes for Spot Cleaning Only

S – Spot clean with a water-free, dry-cleaning solvent only. Pre-test a small, inconspicuous area first. Do not over saturate. Do not use water. Cushion covers should not be removed and dry-cleaned as this may cause fabric color to fade. To prevent overall soiling, frequently vacuum or lightly brush with a non-metallic, stiff bristle brush to remove dust and grime. When cleaning a spill, blot immediately to remove spilled material. Clean stains from the outside of the affected area, moving toward the center, to prevent the stain from migrating outward. Pile fabrics may require brushing gently with a non-metallic, stiff bristle brush to restore appearance.

W/S or S/W – Spot clean with upholstery shampoo, foam from a mild detergent, or a mild dry-cleaning solvent. Pre-test a small, inconspicuous area for color bleeding, fading or color transfer. Do not over saturate. Use a professional upholstery cleaning service for overall soiling.

X – Clean only by vacuuming or light brushing with a non-metallic brush. Do not use water or dry-cleaning solvents. Consult a professional upholstery cleaner.

W - Spot clean only with water-based shampoo or foam upholstery cleaner. Pre-test a small, inconspicuous area for color bleeding, fading or color transfer. Do not over saturate. Use professional upholstery cleaning service for overall soiling.

WASHABLE FABRICS

SPOT CLEANING - Dilute a mild detergent in distilled water. With a clean white cloth, blot the stained area, working from the outside of the stain inward, to prevent stain from expanding. Do not rub as this may damage the fabric. Repeat this step to make sure all soap is removed, as any remaining cleaning solutions will attract dirt for future stains and may leave a water mark area that can appear to be a stain.

MACHINE WASHING - Only SLIPCOVERS in WASHABLE fabrics can be cleaned in a washing machine. Slipcovers have surged and double loop lock stitching on seams to prevent unraveling when washed. Fabrics that are not washable may shrink, fade, or be damaged if washed. Be sure to wash all parts of the slipcover to maintain even color and wear.

See our Slipcover Care video for more details. https://www.rowefurniture.com/fabric-finish/slipcover-care

Pre-washed fabrics that are not Slipcovers can be spot cleaned with a water-soluble cleaner but not washed in a washing machine as the seams may unravel.

VACUUM ALL UPHOLSTERY REGULARLY: Use an upholstery brush attachment and apply light pressure. Do not use electric beater bar attachment or place the vacuum nozzle directly on the fabric as this may damage the fabric.
